- Spillovers from Upline.
- Spillovers from Cross leg team.

You can fill in structures for yourself and each other with the whole global community. These are spillovers. For instance, your upline invited a participant to join your global auto pool. There can also be spillovers from below if participants who are placed in your global pool invite others who also end up in your global auto pool.

Working in a team with spillovers depends on your team, The Global Teams, and the Teams of your upline and downline partners. Nevertheless, the possibility of achieving success in developing your team is in your hands in any case.
